Experience

Product Designer – Design Systems

August 2024 – Present

Greenstand

New York City, NY

- Owned and scaled a **mobile-first design system** supporting two production applications, improving developer velocity by **25%** and ensuring long-term UI consistency
- Established component architecture, **design tokens**, and interaction standards using **Figma** and **Material UI**, enabling faster feature delivery across platforms
- Collaborated with engineers to define **accessibility-first component semantics** and responsive behaviors, reducing reported accessibility issues by **30%**, particularly in low-bandwidth global regions
- Drove usability testing and rapid prototyping for touch-based workflows, driving a **20% increase in mobile engagement**
- Served as design system steward, reviewing contributions, documenting standards, and aligning UX decisions with scalability and maintainability goals
- Aligned design system priorities with product roadmap and engineering constraints, sequencing components based on usage frequency, impact, and delivery risk

Senior Product Designer

September 2022 – August 2024

APMC @ Northeastern University (Product Organization)

Boston, MA

- Directed the end-to-end redesign of a **member-facing events platform** for a student-led product organization, serving **700+ monthly users** across campus
- Restructured navigation and information hierarchy through user research and **A/B testing**, reducing mobile task completion time by **20%**
- Partnered cross-functionally with developers and stakeholders in **agile sprints** to deliver responsive, production-ready experiences
- Applied insights from **Google Analytics** and **Hotjar** heatmaps to identify friction points and guide iterative design decisions
- Balanced user needs with organizational goals, contributing to a **10% increase in engagement** among mobile-first users

Product Designer

May 2021 – August 2022

N.S.S Logistics

Mumbai, India

- Designed and optimized **B2B procurement workflows**, reducing order processing time by **30%** and improving operational efficiency
- Standardized **UX patterns and reusable components**, increasing consistency and reducing design-to-development friction
- Conducted usability testing and stakeholder interviews, driving a **25% increase in platform adoption**
- Translated data insights into design improvements for high-frequency workflows, reducing user errors by **20%**

Leadership & Community

UX Design & Research Contributor (Community)

January 2025 – Present

OpenAI

New York City, NY

- Conducted UX research and provided evaluative feedback on early-stage **AI interaction patterns**, with focus on accessibility, ethics, and usability
- Examined **prompt-based and conversational interfaces**, informing iteration cycles and usability improvements
- Engaged in cross-disciplinary design discussions around scalable **human-AI interaction** and design systems

Technical Skills

Design & UX: Product Design, Interaction Design, Mobile UX, Information Architecture, Prototyping, Usability Testing, Journey Mapping

Design Systems & Accessibility: Design Systems, Component Architecture, Design Tokens, System Governance, Accessibility (WCAG)

Research & Data: User Interviews, A/B Testing, UX Benchmarking, Surveys, Qualitative and Quantitative Analysis

Tools: Figma, Material UI, Adobe Creative Suite, Axure RP, Notion, Hotjar, Google Analytics, Jira, GitHub

Development: HTML, CSS, SCSS, JavaScript, React (collaborative), Git

Education

Northeastern University

May 2024

Master of Science in Computer Software Engineering (Human-Computer Interaction)

Boston, MA

Mumbai University

June 2021

Bachelor of Engineering in Electronics Engineering

Mumbai, India
